The footprints may disappear but the memories will last a lifetime.
Standard pool liners present visible lines on the pool floor at the seams which ultimately detract from the beauty of the pool. Our innovative ULTRA-SEAM™ technology elevates our liners to an entirely new category. This exclusive process makes floor seams stronger and virtually invisible, so there’s nothing that gets in the way of the picture perfect beauty of your pool!

Now standard on every Pacific Liner.

For more information, ask your dealer about ULTRA-SEAM™!

Beauty, serenity, and peace of mind.

Pacific liners are designed and manufactured using the most advanced technology in the industry. Our skilled and knowledgeable designers and machine operators take pride in every liner they make. As a result, you get the highest quality, best fitting liner money can buy. Our quality control is so tight, few defects get by and we back every liner with one of the best warranties in the industry. It’s why more dealers specify our liners than any other manufacturer!

• Largest inground liner manufacturer in North America.
• Wide selection of designer patterns.
• Exclusive designs available only from Pacific Pools.
• Highest quality vinyl materials.
• State-of-the-art computer driven technology.
• Over 50 years of experience.
• Backed by one of the best warranties in the industry.
• Great for replacement liners.
• Ultra-Seam is standard on every liner.
• Liners carry a 5-year full, 15 year prorated, transferable limited warranty.

Here’s what your neighbors are saying about their new Ultra-Seam® liner.

“Thank you so much for building our beautiful pool. We are very pleased with how well the whole experience went. We are especially happy that we chose an Ultra-Seam liner. The seamless look is one of the best features of our pool, and we’ve gotten lots of compliments.”

Bill and Lisa, Pool Owners

“Had never heard of Ultra-Seam before, but when we called our pool dealer to have a new liner installed, he recommended it. We’re so glad we went with his recommendation, because it sure makes our pool look great! We were surprised to see the huge difference an Ultra-Seam liner made.”

Frank and Deb, Pool Owners

“This is our second year with our Ultra-Seam liner, and beside the great look of no seams, I’ve got to mention how much easier it is to keep clean with the smooth seams. It’s a win-win situation.”

Linda, Pool Owner

SAFETY INFORMATION

IMPORTANT: A number of very important items that are essential for the safe use of your pool may not be visible in many of the photographs, either because of perspective or camera angle, or because they were removed for photographic purposes. These items include, but are not limited to:

1. Safety ropes, which should remain in place at all times;
2. “No Swimming” signs, which are provided and should be installed in accordance with instructions included on the coping or liner, where they are clearly visible;
3. An area sign is provided and must be permanently and conspicuously affixed in the pool area where all users can see it;
4. Necessary means of exit and entry into the pool;
5. Fencing with self-latching gate, and other barriers that can assist in preventing unsupervised access to the pool by children;
6. Approved drain covers and other devices to protect against suction entrapment;
7. Minimum required insets and returns to ensure proper water circulation;
8. Appropriate inpool lighting if the pool will be used after dark.

All of these devices should be installed in accordance with manufacturer’s instructions, ANSI/NSPI or ANSI/APSP or ANSI/APSP/MCC standards, as well as state and local statutes and codes.

Diving boards and slides require minimum depths and distances and must only be installed and used in strict compliance with the equipment manufacturer’s specifications and ANSI/NSPI or ANSI/APSP or ANSI/APSP/MCC standards. If the pool is labeled as NON-DIVING, then diving equipment may not be installed and any such equipment must be removed before the pool is used.

Smart pool owners always think safety first. They take specific steps to ensure that their family, friends and guests are knowledgeable about the safe and sensible use of their pool. They also:

• ensure that their pool is never used unless there is adequate supervision;
• ensure that their pool is kept in good repair and is not used when there is a missing or broken drain cover or other component;
• ensure that ALL CHILDREN using their pool are supervised constantly;
• that anyone under the influence of alcohol, drugs or stimulants that would impair their abilities or judgement does not use the pool;
• ensure that their pool is protected by appropriate barriers to unsupervised entry including fencing with self-latching gates, covers, alarms, etc.

To assist you, a number of very important items of safety literature are included with each pool liner and also available upon request. We must insist that you read each item carefully and follow its instructions. These are:

• Pool Owners Safety Handbook
• APSP’Sensible Way’ Book
• Vinyl Swimming Pool Liner-Warranty
• ‘Children Aren’t Waterproof’ Book
• ‘No Diving’ Labels
• Area Sign

Make sure your builder supplies you with all of the safety information that accompanies your pool and installs the enclosed warning stickers and area sign where they can be clearly visible to all who use the pool.
