

Latham Measure vs. Traditional Methods

Turnaround times using Latham Measure are up to 3x faster than traditional methods—and only getting faster.

	Traditional Method: Two Person Team, Time to Complete	Latham Measure: One Person, Time to Complete		Traditional Method: Time to Receive Quote	Latham Measure: Time to Receive Quote
Measuring process	2 hours	less than 30 minutes	Quoting time	1 day	Less than 10 minutes
	Traditional Method: Time to Receive Drawing	Latham Measure: Time to Receive Drawing		Traditional Method: Time to Order	Latham Measure: Time to Order
Drawing time	1 day	Instant	Order entry time	1 day	Instant

Note: All data above based on average process times.

A Day in the Life with Latham Measure

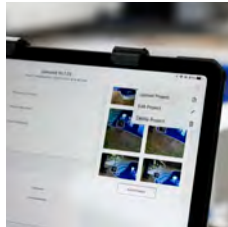

We worked directly with our customers in the field to thoroughly test using Measure in a production environment.

The tech team arrives poolside

Pool measurements are captured

Data is uploaded to the cloud

AI algorithms process the data

Go to the Builder Portal to quote/order

Receive quotes/orders virtually instantly

Measure Test Project Name	Poolside Measuring Time	Drawing Request	Quote/Order Time	Latham Review Time	Total Time from Poolside to Production
Stoltz	14 minutes	Instant	6 minutes	8 minutes	28 minutes
Whitley	12 minutes	Instant	5 minutes	6 minutes	23 minutes
